About Phoenix Children’s Hospital

Phoenix Children’s Hospital is Arizona’s only licensed children’s hospital, providing world-class care in more than 40 pediatric specialties to our state’s sickest kids. Though Phoenix Children’s is one of the ten largest freestanding children’s hospitals in the country, rapid population growth in Arizona means the Hospital must grow as well. Phoenix Children’s recently announced a \$588 million expansion plan to bring its special brand of family-centered care to even more patients and families. The plan includes a significant upgrade of the Hospital's current campus, an aggressive physician recruitment effort, and new satellite centers in high growth areas of the Valley.
